

Fire Instructor Position(s) – International (m/f/d)

IGNIS Global Protection Group seeks a qualified **Firefighting Instructor(s)** to deliver high-standard training programs in accordance with international and local safety regulations. This role demands proven operational firefighting experience, recognized instructional certifications, and strong organizational skills to ensure training quality and operational readiness through both practical and theoretical instruction.

WHO WE ARE

IGNIS Group is a full-spectrum provider of emergency management and compliance solutions, headquartered in Germany. We serve airports, governments, industry, and military clients across five continents.

Through our **IGNIS Training Division**, we deliver advanced firefighting and emergency response programs as part of a broader compliance and safety strategy. Operating across **Europe, the Middle East, Asia, and Africa**, we help organizations strengthen emergency readiness through **practical and theoretical training** integrated with compliance and operational audits. Learn more at <https://www.ignis.group>.

ABOUT THE ROLE

This position combines **technical expertise, instructional experience, and organizational capability**. As a Firefighting Instructor, you will play a key role in delivering advanced emergency response training and managing project logistics to ensure programs meet the highest safety and compliance standards.

Your responsibilities include:

- **Deliver specialized fire and rescue training** courses, seminars, and coaching activities for industrial fire service organizations and international airports — at client locations or at one of our associated training facilities, on a **project-to-project basis**
- **Plan, organize, and manage resources** for each project, i.e. course schedules, equipment
- Maintain **accurate records and reports** for all assigned projects, ensuring compliance with internal and client requirements
- Ensure **training quality and safety standards** are consistently met across diverse environments

Assignments are **project-based** and may involve work across **Europe, the Middle East, Asia, and Africa**, requiring adaptability, professionalism, and strong organizational skills.

Curriculums and training materials are provided, but instructors are expected to **adapt content and maintain awareness of evolving standards**.

Language Requirements: The core language of instruction is **English**. Additional languages are valued.

WHOM WE ARE LOOKING FOR

We are seeking professionals who combine **field experience, instructional expertise, and organizational capability** to successfully fulfill the responsibilities outlined in this role.

Trusted Advisor in Emergency and Hazard Protection

20+ Years of Global Expertise

PROFESSIONAL EXPERIENCE

- ➔ **Firefighting Experience:** Minimum **10 years** in operational firefighting
- ➔ **Instructional Credentials:** At least **5 years** as a certified fire service instructor

REQUIRED CERTIFICATIONS

To hit the ground running, you must hold current certifications (IFSAC or ProBoard preferred) in:

- **Firefighter I and II**
- **Fire Officer I**
- **Fire Instructor I, II**
- **Industrial Firefighter**
- **Aircraft Rescue and Firefighting (ARFF)**
- **Driver Operator:** Engine, Mobile Water Supply (MWS), and ARFF
- **Incident Command:** ICS 100, 200, 700, and 800
- **HazMat:** Awareness, Operations, and Technician
- **Rescue Technician:** Confined Space, Vehicle & Machinery Extrication, Rope Rescue

Note: Certifications must be valid and up to date according to issuing authority requirements.

We value candidates who bring **professionalism and a commitment to safety excellence**. If you have relevant experience and certifications, even from different high-risk sectors, we encourage you to apply.

POSITIONS BENEFITS

We make sure your hard work is recognized and supported:

- ➔ **Competitive project-based compensation** aligned with international standards
- ➔ **Flexible scheduling** based on project assignments
- ➔ **Comprehensive health and accident insurance** for the duration of each project
- ➔ **Fully covered business travel arrangements**, including flights, accommodation, and transfers
- ➔ **Opportunity for worldwide travel** and work in diverse cultural environments
- ➔ **Professional development** through exposure to advanced training methodologies and practices
